

DRAFT AGENDA

California Wadeable Streams Biostimulatory and Biointegrity Amendments
Stakeholder Advisory Group Meeting
July 26, 2017 9:00 am to 3:15 pm

SCCWRP, 3535 Harbor Blvd., Suite 110, Costa Mesa CA 92626

TELECONFERENCING INFORMATION AT THE BOTTOM OF THE AGENDA

Note: Please RSVP if you will attend in-person to Christina Rivas (christinar@sccwrp.org)

Meeting Goals:

- 1) Discuss Technical Team response to Science Panel findings re: Biostimulatory – Biointegrity Science Plan
- 2) Discuss stakeholder feedback on preliminary model to predict bioassessment index scores across gradient of development in California landscapes
- 3) Discuss biological condition gradient preliminary findings and technical team and stakeholder perspectives on potential applications
- 4) Discuss preliminary findings and stakeholder feedback on algal stream condition index development
- 5) Discuss stakeholder perspectives on the tenets of a watershed approach

9:00– 9:10 am	Welcome, Introductions, Meeting Goals and Review of Agenda-Nick Martorano and Jessie Maxfield (SWRCB)
9:10– 10:00 am	Technical Team responses to Science Panel findings (Raphael Mazor and Martha Sutula, SCCWRP)
10:00 – 11:15 pm	Discuss stakeholder feedback on preliminary model to predict bioassessment index scores across gradient of development in California landscapes (a.k.a. Channels in Developed Landscapes) <ul style="list-style-type: none">• Summary of project goals, approach and draft model (Raphael Mazor, SCCWRP)• Stakeholder feedback on model and potential applications (Brock Bernstein, independent facilitator, all)
11:15 – 12:30 pm	Discuss biological condition gradient preliminary findings and technical team and stakeholder perspectives on potential applications <ul style="list-style-type: none">• Summary of project goals, approach and draft model (Michael Paul, Tetra Tech)• Stakeholder feedback on BCG and potential applications (Brock Bernstein, independent facilitator, all)
12:30 – 1:00 pm	Catered (working) lunch (\$10)
1:00 – 2:15 pm	Discuss preliminary findings and stakeholder feedback on algal stream condition index development (Susie Theroux, SCCWRP) <ul style="list-style-type: none">• Summary of project goals, approach and draft model (Susie Theroux, SCCWRP)• Stakeholder feedback on ASCI (Brock Bernstein, independent facilitator, all)
2:15 – 3:00 pm	Discuss stakeholder perspectives on the tenets of a watershed approach (Tom Grovhoug, LWA)
3:00 – 3:15 pm	Next Steps and Adjourn
