

bay area water/wastewater workforce reliability

# North Bay Cross Training

Join us for a unique training opportunity!  
The trainings are FREE and open to BAYWORK signatory members and invited guests.

Choose from the three opportunities described below.

CWEA and SWRCB contact hours may be available.

## Town of Windsor

In this 2-day training, participants will get an in-depth look at the SCADA system, work with the wastewater treatment plant operations staff, inspect and service equipment, learn about the town's recycled water program, view laboratory procedures, and learn about the phosphorus reduction program and floating solar array!

Spots available: 6

Dates: May 15-16, 2019

June 12-13, 2019 or June 19-20, 2019

## Ross Valley Sanitary District

In this 4-day training, participants will get an in-depth look at equipment and pipe maintenance and condition assessment.

Spots available: 12

Dates: April 4, 11, 18, and 25, 2019

## NapaSan

In this 3-day training, participants will get an in-depth look at the biosolids management program, preventive maintenance and cleaning of the influent pump station, NapaSan's Operator-in-Training program, and the Confined Space Entry program.

Spots Available: 15

Dates: May 7-9, 2019

## How to Apply

Training runs from 10 am to 3 pm each day. Lunch is provided.
